DETAILED ACTION

Claim Rejections - 35 USC § 112

Claims 1-12 and 14-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The rejection of the claims under this section of code was applied in the last Office action. In response applicants have rephrased the claim and inserted additional limitations to address art rejections. The Examiner has considered the claims *de novo*. It remains unclear in the instant claims what the "throughput of the dispersion" defines in the definition of Θ . For example, is the throughput the amount of the dispersion that exits the agitating apparatus after the specified steps, the amount of dispersion that is mixed in the mixing step, the quantity of dispersion in the dispersion tank, or the amount of dispersion that is fed back into the dispersion supply tank. The recent amendments and remarks do not appear to clarify this characteristic, which is essential to understanding the scope of the claims. It appears that the "throughput" of the fine droplet forming process would be the same as the initial amount of material added to the system. This would also be the same amount of material removed in step (4). There is no apparent reaction that would result in a different amount of material (e.g., consumption of material).

Allowable Subject Matter

Claims 1-12 and 14-20 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
